Section I: General Overview and Next Steps			
<p>A joint RSSAC-SIC Working Group formed to conclude the implementation of the recommendations arising out of the organizational review of the RSSAC has recommended modifications to the Bylaws addressing the RSSAC. On 20 December 2012, the Board directed the ICANN President and CEO to post for public comment the proposed changes to Article XI, Section 2.3 of the ICANN Bylaws that are necessary to modify the charter for the RSSAC in line with the recommendations arising out of the organizational review of the RSSAC. The public comment period was opened on 3 January 2013 and closed on 17 February 2013. No input was received and no objections were raised in response to the proposed Bylaws amendments, which indicates that such amendments are desirable for the RSSAC to improve its effectiveness in the current environment. The Structural Improvements Committee (SIC) will factor this in and define subsequent steps accordingly.</p>
